

LIKE-NEW LUXURY DIESEL PUSHER

2014 Forest River Berkshire 400QL

41' Class A diesel pusher • ~17,000 miles • Freightliner air-ride chassis • Cummins 340HP • Allison 6-speed • residential interior • multiple slide-outs

Offered at
\$149,000 OBO

Experience luxury on the road with this 2014 Forest River Berkshire 400QL — a 41-foot Class A diesel pusher on a reliable Freightliner chassis with full air suspension and air brakes for a smooth, stable ride. Powered by a Cummins 340HP diesel and an Allison 6-speed automatic, this coach is built for long-haul travel or full-time living — and with only about 17,000 miles, it runs like it's brand new.

Why this one stands out

- **Ultra-low ~17,000 miles** — lightly used and exceptionally maintained.
- **King Sleep Number bed** (mattress just ~1 year old).
- **Residential-style interior** — high-end cherry finishes, tile floors, electric fireplace, entertainment system.
- **Full-size residential kitchen** — French-door fridge, oven, cooktop, microwave, granite counters.
- **Diesel power & comfort** — Onan 8kW diesel generator, auto hydraulic leveling, solar, multiple slides.

Whether you're planning a cross-country trip or settling into full-time RV living, the Berkshire 400QL delivers top-tier comfort, performance, and convenience — gently used, well maintained, and ready for its next adventure.

Built to travel

- Freightliner raised-rail chassis with full **air suspension and air brakes** — one of the last Berkshires on the XL platform.
- **Cummins 340HP** turbo-diesel pusher with **Allison 6-speed** automatic.
- Full-body paint, multiple slide-outs, and power patio awning.
- Automatic hydraulic leveling, backup and side-view cameras, and massive basement pass-through storage.

The slide-outs open into a bright, spacious salon finished in rich cherry cabinetry and easy-care tile. A wraparound leather sectional and a free-standing dinette create comfortable spaces to relax, dine, or work, anchored by an electric fireplace and a full entertainment system. Large windows and abundant recessed lighting keep it warm and open.

A true full-size kitchen: stainless French-door residential refrigerator, three-burner cooktop with oven, over-range microwave, and a deep undermount sink — all set into granite countertops with a tile backsplash and generous solid-wood cabinet storage. Everything you need to cook and entertain on the road, with none of the compromises of a smaller coach.

The private rear master features a **King Sleep Number** bed (mattress just ~1 year old), a mirrored wardrobe, a dresser with counter space, overhead cabinetry, and its own TV. The full bathroom offers a walk-in shower, vanity with storage, and a private commode – with a pocket door separating the suite from the living area for privacy.

Two heavy-duty captain's chairs, a full driver's dash with overhead TV, and excellent visibility make long days behind the wheel easy — backed by backup and side cameras for confident highway driving and tight parking.
